UML Sequence Diagram

TEST CASE

What is a user doesn't respond?

-What if no one responds?

- If less than 30% of people do not respond then they will just be removed from the calculation
- If 30% or more of people do not respond then the users receive alert 72 hours before meeting. Manager if notified via email if no response if still no response

TEST CASE

What happens if there is a tie?

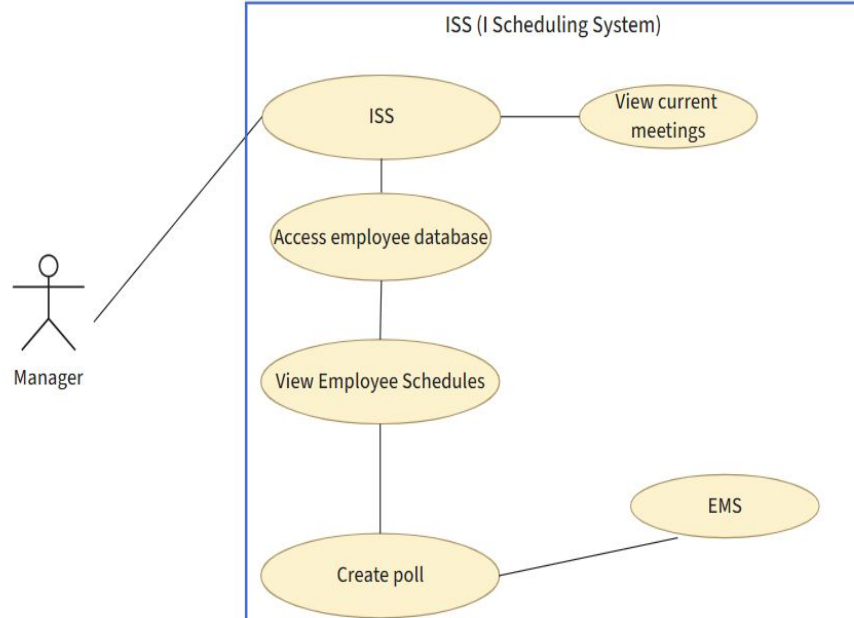

The manager gets notified to either choose or set 2 meetings

TEST CASE

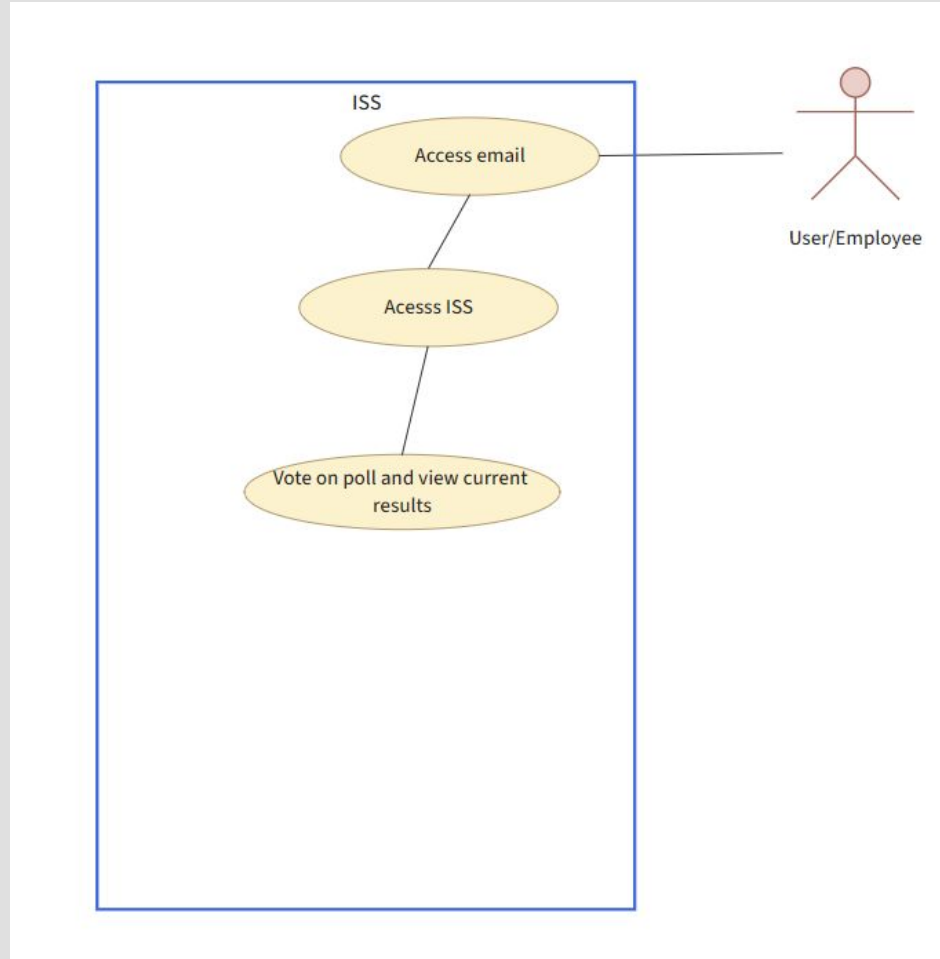

What happens a manager never confirms the meeting, if there is a tie

The proposed meeting never gets added to calendar, and the manager gets prompted to confirm the meeting.

USE CASE

USE CASE

Thanks for your listening !
